

# Strategic Dialogue with Civil Society: stakeholder consultation on implementation of the European Disability Strategy 2010-2020

This survey aims to gather feedback on the European Disability Strategy 2010-2020 and its implementation.

The survey targets Organisations of Persons with Disabilities (DPOs), non-governmental organisations (NGOs) and other organisations working in the field of disability.

When replying to the survey, you should only express the views of your organisation, not your personal views.

The questions cover five implementation criteria: effectiveness, efficiency, relevance, coherence and EU added value.

To take part, you should have a strong understanding of the European Disability Strategy 2010-2020.

The results of the survey will be discussed during the 'Strategic Dialogue with Civil Society', a meeting between the European Commission and representatives of civil society that takes place in Brussels on 11 April 2019.
