

## Disability Rights Strategy

The European Commission makes laws for the European Union.

The European Commission made the **Disability Rights Strategy**.

The Disability Rights Strategy is a plan to make the European Union **more accessible for persons with disabilities** within the next 10 years.

## External Action

External action is a part of the Disability Rights Strategy for projects outside of the European Union.

IDDC stands for **International Disability and Development Consortium**.

EDF and the IDDC think the external action part of the Disability Rights Strategy is **not good enough.**

**It does not have a clear time for its plan.**
